From the coast, the fastest route is a flight from Mombasa or Diani to Wilson, then a light aircraft to a Mara airstrip, typically a full travel day.

Road travel is long and not recommended as a single leg. A common alternative is to break the journey in **joining shared Masai Mara safari group** Nairobi overnight.

Baggage limits apply on both legs, and coastal humidity means drying kit before the safari. Book **masai mara group joining safari** the Mara flight early in peak season, since light aircraft seats sell out. Coastal to Mara routing is at %LINK%.
