What is Crazy Time?

At its core, *Crazy Time* is a live dealer video game reveal hosted by a passionate, energetic presenter. The focal point of the video game is a massive, vertically installed wheel consisting of 54 sectors. Gamers put bets on the segment they think the wheel will stop on.

While the principle sounds simple, the combination of a **Top Slot**-- a secondary two-reel slot device that spins concurrently with the main wheel-- injects random multipliers into every single round. If the Top Slot lines up a bet type with a multiplier, every win connected with that bet is significantly boosted.

The Wheel Breakdown

To understand how the video game works, one must take a look at the design of the 54 sectors. The wheel is divided into numbers (1, 2, 5, and 10) and four reward bitz.io round sections.

The Four Wild and Wonderful Bonus Rounds

1. Coin Flip

This is the easiest and most frequent benefit round.

- **How it works:** A coin with a red side and a blue side is turned by a mechanical flipper.
- **The Payout:** Before the flip, random multipliers are appointed to both the red and blue sides. Whichever side lands face up identifies the multiplier used to the player's stake.

2. Cash Hunt

Step up to an enormous virtual shooting gallery.

- **How it works:** The screen shows a grid of 108 random multipliers hidden behind different signs (like a cactus, a target, or a chef's hat).
- **The Payout:** Players use an on-screen cannon to aim and contend one symbol before a countdown timer ends. As soon as the timer ends, all symbols reveal their covert multipliers, and the player wins whatever value their chosen symbol hidden.

3. Pachinko

Inspired by the standard Japanese arcade video game, Pachinko is all about gravity and anticipation.

- **How it works:** The dealer drops a puck from the top of a radiant purple Pachinko wall filled with physical pegs. The puck bounces randomly down the board until it lands in one of the landing zones at the bottom.
- **The Payout:** Each zone includes a multiplier. If the puck lands in a "DOUBLE" zone, all multipliers on the board double, and the puck is dropped once again for huge possible payouts.

4. Crazy Time

The supreme function of the game, taking place behind an enormous red door.

- **How it works:** The host unlocks to reveal a surreal, giant virtual wheel with 64 sectors and three flippers (Green, Blue, and Yellow).
- **The Payout:** The gamer must choose one of the three flippers. The wheel is spun, and whichever multiplier the picked flipper points to when the wheel stops is granted to the gamer. Similar to Pachinko, landing on "DOUBLE" or "TRIPLE" increases all values on the wheel for a re-spin.

- **Covering the Board:** Some players select to spread out little bets throughout several numbers and benefit rounds to guarantee they have a stake in almost every spin. However, this requires cautious bankroll management, as covering too many outcomes can quickly diminish funds if low-paying numbers keep hitting.
