1. Match Winner (Moneyline)

The most simple bet in the game. One wagers on which group will win the best-of-one, best-of-three, or best-of-five series. It is the standard for all betting strategies.

2. Map Handicap

Because many CS2 matches are played as best-of-threes, handicaps are common. If a group is a heavy favorite, they might be given a -1.5 map handicap. This implies they need to win the series 2-0 to cover the spread. On the other hand, banking on the underdog with a +1.5 handicap suggests they win the bet if they win even a single map in the series.

3. Total Maps Over/Under

This market concentrates on the length of the series. In a best-of-three, the "Total Maps" is generally set at 2.5. Betting "Over" suggests the bettor anticipates the series to go to 3 maps; wagering "Under" suggests a quick 2-0 sweep.
