The main objective is simple yet exceptionally difficult: launch the aircraft, navigate through the skies, collect multipliers and fuel boosts, and squander-- or reach the location-- before the unavoidable occurs. The game relies heavily on a dynamic multiplier system that increases the longer the flight continues, producing a mental tug-of-war in between greed and self-preservation.

3. **Resource Management:** Fuel and elevation are not limitless. Gamers should navigate barriers or gather mid-air perks to keep the engine running.
4. **The Cash-Out (Extraction):** The defining moment of any Avia Masters run. Gamers must manually set off a landing or escape before the airplane stalls, crashes, or runs out of fuel. If they fail to cash out in time, the round ends with an overall loss of built up points or benefits for that run.
