When a round starts, a red plane removes, and a multiplier coefficient starts increasing quickly from **1.00 x**. The objective is stealthily easy: players must cash out their profits before the plane flies away. If a player squanders successfully, their bet is multiplied by the coefficient at the time of the cash-out. However, if the aircraft flies away before they cash out, the bet is lost.

3. **Squander:** Players must keep an eye on the increasing multiplier and click the **"Cash Out"** button before the aircraft disappears off the screen.
