If the bet area and the multiplier align horizontally in the Top Slot, a multiplier is applied to that particular result for the upcoming spin. If the main wheel lands on that winning sector, all payments for that segment are increased by the Top Slot multiplier. In bonus offer rounds, this can lead to huge wins.

The Four Extravagant Bonus Rounds

The piece de resistance of the Crazy Time casino game is its four bonus rounds. Players need to place a bet on the specific perk section to get involved, though anyone can view the action unfold.

1. Coin Flip

- **The Action:** Players are offered a short countdown to objective and fire a virtual cannon at a target of their choice. As soon as the timer expires, all targets expose their concealed multipliers, and the gamer is awarded whatever multiplier their chosen target hid.

3. Pachinko

- **The Setup:** A large Pachinko wall filled with a grid of physical pegs is shown on screen. At the bottom are several landing zones, each featuring a multiplier.
- **The Action:** The video game host drops a glowing puck from the top of the board. As the puck bounces randomly down through the pegs, it eventually settles into one of the bottom multiplier zones. If the puck arrives at a "DOUBLE" zone, all the bottom multipliers double, and the host drops the puck again for even larger wins.

4. Crazy Time
