Counter-Strike: Global Offensive (CS: GO) has constructed a successful in-game economy around weapon skins, stickers, and-- most prominently-- cases. 1. What Are CS: GO Cases?

CS: GO cases are virtual loot boxes that appear in the video game's stock. Each case consists of a random choice of skins, and the specific contents are figured out by a hidden "drop list." Players can obtain a case in numerous ways:

- **Purchase on the Steam Community Market**-- Cases are noted for sale by other players.
- **Third-party marketplaces**-- Authorized sellers offer cases, often at a discount rate or with additional payment choices.

When a case is opened, a **key** (either a complimentary "Case Key" from the in-game store or an acquired "Key" from the Steam Market) is required. The result is random, but each skin has a documented "float" worth, rarity, and market value.

2. Why Buy CS: GO Cases?
