What is Crazy Time?

At its core, Crazy Time is a live dealer video game show hosted by a passionate, energetic presenter. The main function of the video game is a huge, brilliantly colored, 54-segment mechanical wheel located in a cutting edge studio. Players put bets on where they believe the wheel will stop after a spin.

Nevertheless, what separates Crazy Time from standard money wheel video games-- like *Dream Catcher*-- is the addition of the **Top Slot**. Above the main wheel sits a two-reel mini slot machine that spins simultaneously with every primary wheel spin. This Top Slot creates a random multiplier for a particular bet section, which can considerably improve payouts if that section strikes on the primary wheel.

The Betting Options

The 54 sectors on the Crazy Time wheel are divided into numbers and bonus rounds. Players can bank on any mix of these alternatives:

- **Number 1:** Appears 21 times on the wheel (pays 1:1)
- **Number 2:** Appears 13 times on the wheel (pays 2:1)
- **Number 5:** Appears 7 times on the wheel (pays 5:1)
- **Number 10:** Appears 4 times on the wheel (pays 10:1)
- **Coin Flip Bonus:** Appears 4 times on the wheel

- **Pachinko Bonus:** Appears 2 times on the wheel
- **Crazy Time Bonus:** Appears 1 time on the wheel

The Four Wild and Wacky Bonus Rounds

Whenever the wheel stops on one of these sections, gamers who placed a bet on that particular benefit round are transported to a secondary game space, either physically in the studio or through immersive digital graphics.

Reward Round Frequency on Wheel Optimum Potential Multiplier Description **Coin Flip** 4 sectors 5,000 x An easy red and blue coin is flipped to figure out a multiplier. **Money Hunt** 2 segments 10,000 x A shooting gallery screen with 108 random multipliers concealed behind signs. **Pachinko** 2 sectors 10,000 x A glowing puck is dropped down a peg wall to land in a multiplier slot. **Crazy Time** 1 sector 20,000 x An enormous virtual wheel behind a red door offering life-altering multipliers.

Using a virtual cannon, the player must aim and fire at one sign before the timer runs out. As soon as the timer ends, all symbols expose their surprise multipliers, and the player wins the multiplier behind their chosen target.

3. Pachinko

Influenced by the conventional Japanese arcade game, this round includes a massive physical wall filled with pegs. The host drops a glowing puck from the top, and it bounces randomly down the board up until it lands in among the slots at the bottom, each including a multiplier. If the puck lands in a "Double" slot, all multipliers on the board double, and the puck is dropped again as much as a maximum multiplier limitation.

4. Crazy Time

The holy grail of the game. Players go through a mysterious red door into a virtual, psychedelic wonderland featuring an enormous 64-segment wheel. Before the wheel is spun, the player needs to select one of three flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the picked flapper indicate is awarded.
