- **Boxing Day Sales:** Held right after Christmas, this is a prime-time show for post-holiday clearance occasions.
- **New Model Releases:** Manufacturers generally launch brand-new furnishings lines in spring or early autumn. Just before these releases, older designs go on deep discount.

Kinds Of Cots Available on the Market

Before browsing a baby cot sale, shoppers must decide which kind of cot finest suits their way of life, nursery size, and long-lasting requirements.

1. Basic Cots

A classic, stationary cot created strictly for infants and toddlers. They offer a tough sleeping environment and often include adjustable bed mattress heights.

2. Convertible (3-in-1 or 4-in-1) Cots

These versatile choices grow with the kid. They begin as a standard cot, transform into a young child bed (and often a daybed), and can eventually transform into a full-sized bed frame with the purchase of an extension package.

3. Portable and Travel Cots

Light-weight, collapsible, and simple to move, these are perfect for grandparents' houses, regular tourists, or small areas where a long-term cot will not fit.

4. Bassinets and Co-sleepers

While not technically full-sized cots, these are frequently included in nursery sales. They are designed for newborns to sleep best beside the parents' bed for the first few months.

What to Look for During a Baby Cot Sale (Checklist)

A low rate tag implies nothing if the item compromises on Baby Cots quality or safety. When examining choices during a sale, savvy buyers ought to keep the following requirements in mind:

- **Safety Certifications:** Ensure the cot abides by rigorous safety requirements (such as ASTM, EN, or AS/NZS requirements, depending on the area).
- **Material Quality:** Look for strong wood (like pine, beech, or birch) or strong, non-toxic made woods. Prevent flaking paints or rough surfaces.
- **Slat Spacing:** The range between the cot slats should be no more than 6 centimeters (about 2.3 inches) to avoid a baby's head from getting stuck.
- **Adjustable Mattress Heights:** A multi-level base is essential. High settings make it easy to raise a newborn, while lower settings keep active toddlers from climbing out.
