What is Big Bass Crash?

At its core, **Big Bass Crash** is a multiplier-based casino game. Unlike standard slots that rely on paylines, reels, and sign mixes, crash video games are developed around an escalating curve.

In Big Bass Crash, the action focuses on an angler casting his net into the water. As the net goes deeper, a multiplier coefficient begins to tick upward from **1.00 x** and climbs up constantly. The main objective for the player is simple yet agonizingly tense: **cash out before the net breaks or the catch escapes.**

If a gamer squanders effectively before the crash happens, their stake is increased by the present value on the screen. If the game "crashes" before they cash out, the bet is lost.
