The peak of fast gameplay in the live gambling establishment sector is **Speed Blackjack** (originated heavily by industry giants like Evolution Gaming). Understanding the underlying mechanics of how these tables run exposes why they move so quickly.

Speed Blackjack shatters this guideline:

1. **The Initial Deal:** Everyone receives their first 2 cards as regular.
2. **The Race to Decide:** When it is time to decide (Hit, Stand, Double, Split), **the gamer who makes their choice the fastest gets their next card first.**
3. **No Waiting:** If a player is quick on the draw, they can strike instantly, bypassing gamers who take an additional second to ponder.
