Gamers put bets on where they believe the wheel will stop after a spin.

However, what separates Crazy Time from standard money wheel games-- like *Dream Catcher*-- is the inclusion of the **Top Slot**. Above the primary wheel sits a two-reel mini fruit machine that spins all at once with every primary wheel spin. This Top Slot creates a random multiplier for a specific bet segment, which can dramatically improve payments if that section hits on the main wheel.

The Betting Options

The 54 segments on the Crazy Time wheel are divided into numbers and bonus rounds. Gamers can bank on any mix of these choices:

- **Number 1:** Appears 21 times on the wheel (pays 1:1)
- **Number 2:** Appears 13 times on the wheel (pays 2:1)
- **Number 5:** Appears 7 times on the wheel (pays 5:1)
- **Number 10:** Appears 4 times on the wheel (pays 10:1)

The Four Wild and Wacky Bonus Rounds

The real heart of the Crazy Time experience depends on its 4 interactive reward rounds. Whenever the wheel stops on among these sectors, players who positioned a bet on that specific bonus round are transferred to a secondary video game space, either physically in the studio or by means of immersive digital graphics.

Reward Round Frequency on Wheel Maximum Potential Multiplier Description **Coin Flip** 4 sections 5,000 x An easy red and blue coin is flipped to figure out a multiplier. **Money Hunt** 2 sections 10,000 x A shooting gallery screen with 108 random multipliers hidden behind symbols. **Pachinko** 2 segments 10,000 x A glowing puck is dropped down a peg wall to land in a multiplier slot. **Crazy Time** 1 section 20,000 x A huge virtual wheel behind a red door providing life-changing multipliers.

1. Coin Flip

This is the most regular perk <https://bitz.io/games/crazy-time> round. The host steps up to a digital turning device. A coin with a Red side and a Blue side is flipped, and whichever side lands face up awards the matching multiplier to the player. Before the flip, multipliers are arbitrarily designated to both sides, and a "Rescue Flip" can sometimes occur if the preliminary multipliers are considered too low.

2. Money Hunt

Gamers exist with a giant screen displaying 108 random multipliers disguised behind numerous shooting gallery icons (like a cactus, a target, or a constable's badge). Utilizing a virtual cannon, the gamer needs to aim and fire at one sign before the timer goes out. Once the timer expires, all symbols expose their hidden multipliers, and the gamer wins the multiplier behind their picked target.

3. Pachinko

Inspired by the traditional Japanese arcade video game, this round includes a massive physical wall filled with pegs. The host drops a radiant puck from the top, and it bounces randomly down the board up until it lands in among the slots at the bottom, each containing a multiplier. If the puck lands in a "Double" slot, all multipliers on the board double, and the puck is dropped once again up to a maximum multiplier limitation.

4. Crazy Time

The holy grail of the game. Players pass through a mysterious red door into a virtual, psychedelic wonderland featuring a massive 64-segment wheel. Before the wheel is spun, the gamer needs to pick among 3 flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the selected flapper points to is awarded. If it points to "Double" or "Triple," all multipliers on the wheel increase, and the wheel spins again up to a maximum cap of 20,000 x.
