1. **The Betting Phase:** Players have a designated window (normally around 5 to 10 seconds) to position their wager. The video game frequently enables dual wagering, meaning gamers can position two different bets on the same round.
2. **The Cast:** Once the betting window closes, the angler casts his internet, and the multiplier starts at 1.00 x.
3. **The Climb:** As the animation plays, the multiplier progressively increases. It can stop anywhere from a low 1.00 x (an instant crash) to enormous heights, limited only by the video game's maximum win cap.
4. **The Cash Out:** Players must hit the "Cash Out" button before the crash takes place.
5. **The Crash:** At an arbitrarily created point figured out by a Provably Fair algorithm, the net fails or the fish escape, ending the round.
