The Secret Sauce: The Top Slot

Before every spin of the main wheel, a two-reel **Top Slot** spins simultaneously above the primary game view.

- Reel 1 shows one of the wagering sectors (a number or a bonus game).
- Reel 2 displays a multiplier (ranging from 2x up to 50x).

If the horizontal reels align to form a match in between the bet sector and the multiplier, that multiplier is used to that specific section for the upcoming spin. If the wheel arrive at that segment and triggers a win (or a bonus round), all payments or benefit multipliers are instantly boosted by that value. This is where Crazy Time truly lives up to its name, enabling for astronomical payments on even the smallest bets.

Dive Into the Four Crazy Time Bonus Rounds

1. Coin Flip

- **Gameplay:** A basic heads-or-tails game. The host presses a button to turn a coin that has a red side and a blue side. Each side is assigned a random multiplier before the flip. When the timer goes out, all players see what was behind their selected target.

3. Pachinko

- **Frequency:** 2 sectors on the wheel
- **Gameplay:** Inspired by the standard Japanese arcade game, Pachinko features an enormous wall filled with physical pegs. The host drops a glowing puck from the top, and it bounces randomly down the board till it lands in among the multiplier slots at the bottom.
