1. **The Setup:** Players pool their resources by selecting a particular set of cases to open. The overall expense of the cases identifies the buy-in for the battle.
2. **The Drop:** Both gamers open the precise very same cases simultaneously round by round.
3. **The Victory Condition:** At the end of the battle, the overall value of all skins dropped for each gamer is determined. The gamer with the highest cumulative skin worth wins the whole contents of the drops for all individuals.

Depending upon the platform and lobby settings, variations like "Deathmatch" (least expensive value wins) or 1v1v1v1 free-for-all can change the basic dynamic.
