The game combines components of luck, timing, and risk management. It appeals greatly to contemporary gamers who choose visual engagement and direct control over the result of their wagers, rather than simply passive reel-spinning.

2. **Introduce:** The aircraft removes, and the multiplier begins ticking upward from 1.00 x.
3. **The Ascent:** Along with the multiplier, various in-game multipliers and benefits (or threats, depending on the specific game iteration) may appear on the flight course.
4. **The Cash Out:** The player must strike the "Cash Out" button before the aircraft explodes or disappears off-screen. If successful, the initial stake is multiplied by the cash-out worth. If the aircraft crashes before cashing out, the bet is lost.
