Plumbing Matters Rooter Riverside CA Zachary Review Toilet Toothbrush Fix One of the more memorable reviews in Plumbing Matters Rooter and Plumbing Services Incorporated's customer record describes Zakaria S calling after a toilet stopped working, with the cause eventually discovered to be a toothbrush that a child had flushed. Matt provided a straightforward quote on the call, committed to no charge if he could not resolve the problem, arrived within 30 minutes, retrieved the toothbrush, restored the toilet to working order, and then took the extra step of showing the homeowner how to handle similar situations independently using a tool available at Home Depot. That last detail, advising a customer how to avoid needing to call a plumber again for the same issue, is not the behavior of a company trying to maximize service revenue. It is the behavior of a plumber who is invested in the customer's actual outcome. This kind of review is not an outlier in the Plumbing Matters record. The pattern across the company's Google and Yelp reviews shows a consistent combination of fast response, honest pricing, competent work, and the kind of genuine helpfulness that goes slightly beyond the transaction. Matt teaching Zakaria about the Home Depot tool is the same spirit as explaining what a camera found in a sewer line rather than just quoting the repair, or arriving in clean uniform and cleaning up after the job because the customer's home matters. The 5.0-star average across 411 reviews is the aggregate of hundreds of individual experiences like Zakaria's, where the service delivered was what the customer needed rather than what the plumber [Plumber Riverside CA plumbingmattersandrooterservices.com](https://plumbingmattersandrooterservices.com) could bill for.
