

Paint correction addresses swirl marks, scratches, and imperfections through professional polishing and buffing, a service Gemstar Detailing includes in its more comprehensive Boise packages. This process restores paint clarity **ceramic coating** and shine that can diminish over time from improper washing techniques, environmental exposure, and general wear from daily driving. Paint correction often precedes ceramic coating application, since properly corrected paint provides the ideal surface for the coating to bond to effectively.

Gemstar Auto Detailing Mobile Detail Boise | 880 E Franklin Rd Suite 306, Meridian, ID 83642 | (208) 971-4652

Gemstar's Masterpiece package typically incorporates paint correction alongside ceramic coating, giving Boise customers a comprehensive paint restoration and protection solution. For paint correction in Boise, call Gemstar Detailing at (208) 971-4652.
