What is Big Bass Crash?

At its core, **Big Bass Crash** is an online casino game established by Pragmatic Play that runs on the "crash" video game mechanic (comparable to titles like *Aviator* or *Spaceman*). Instead of spinning reels to match symbols on paylines, players wager on an intensifying multiplier represented visually by a net cast from a boat into the water.

As the net sinks deeper and pulls up larger catches, the multiplier increases. The goal is simple: squander before the net breaks or the fish leaves. If gamers cash out in time, they win their stake multiplied by the present value. If the video game "crashes" before they squander, the bet is lost.
