- Rather, it is created by integrating the server seed and the seed of the first three gamers in the round.
- Players can check and validate the fairness of every round in the game history by clicking the little green guard icon.

- **Live Statistics and History:** The user interface displays a running history of previous multipliers, along with a leaderboard showing the most significant wins of the day, month, and year.
- **Rain Promo:** In-game chat functions sometimes set off "Rain" bonus offers, dropping complimentary bets into the chat for gamers to claim.
